

Parenteral Therapy Referral (Orders)

Nursing services are primarily provided in clinics, with in-home care only by exception. Prescribers must ensure therapy is appropriate and safe; first dose requests may take longer and are at the nursing provider's discretion. Patients receive self-management teaching and follow-up, and services are not duplicated. Ineligible medications include blood products, naturopathic, and experimental treatments.

Patient Information

HCN	Version Code	Surname	(Legal) First Name	Preferred/Chosen Name
Sex Assigned at Birth ☐ Female ☐ Male ☐ Unknown ☐ Undifferentiated			Preferred Language ☐ English ☐ French ☐ Other (Specify):	
Date of Birth (dd-mmm-yyyy)		Treatment Address		Telephone
Allergies ☐ Unknown No Yes (Specify):				
Patient Contact (if other than Patient)		Relationship		Telephone
Primary Care Provider				Telephone
Primary Diagnosis (diagnosis and date of onset required for COVID 19)				Date of Onset (dd-mmm-yyyy)
Relevant Diagnoses to Care				
Patient taking beta blockers? ☐ No ☐ Yes		Patient taking ACE-inhibitors? ☐ No ☐ Yes		Height (cm)
				Weight (kg)

Medication/Hydration Orders

1. Medication/Hydration Name

- ☐ Adult: Standard flushing protocol ☐ Adult: Alternative flushing protocol (Specify):
☐ Pediatric: Flush protocol (Flush protocol must be individually specified for all pediatric patients)

Dressing Change Instructions

- ☐ Standard dressing protocol ☐ Alternative dressing protocol (Specify):

Lab Monitoring

IMPORTANT: The MRP is required to order/monitor initial and ongoing lab results. **Doses will be held** if infusion pharmacy vendor and nursing service provider do not have lab results where required. **Vancomycin and Aminoglycosides (e.g.: Gentamycin) require the prescriber to attach lab values.** ISMP Canada: [Monograph-IV-Vancomycin.pdf \(ismp-canada.org\)](https://www.ismp-canada.org/monographs/monograph-iv-vancomycin) and [Monograph-IV-Gentamycin](https://www.ismp-canada.org/monographs/monograph-iv-gentamycin) for monitoring laboratory results.

- ☐ Prescriber is monitoring the treatment, lab work (if applicable)
☐ Other practitioner monitoring the treatment/lab work. Enter contact information below
