

Patients and Caregivers

Short Stay Respite Home List

This document is for patients who are considering Short Stay Respite in long-term care homes and their caregivers. This information is provided to help with your decision-making and provide basic information about what different Short Stay Respite programs have to offer their residents.

We strongly encourage patients and caregivers to research and visit each home the patient is considering staying in. It is important to gather any and all information that would help your family make sound decisions on which homes would be suitable for your loved one.

Short-stay respite offers a break for caregivers and gives them peace of mind knowing that their loved one is being temporarily taken care of in one of the homes below. Ontario Health atHome manages and confirms bookings, based on availability.
