Parenteral Therapy Referral (Orders)

Nursing services are primarily provided in clinics, with in-home care only by exception. Prescribers must ensure therapy is appropriate and safe; first dose requests may take longer and are at the nursing provider's discretion. Patients receive self-management teaching and follow-up, and services are not duplicated. Ineligible medications include blood products, naturopathic, and experimental treatments.

Patient Information

HCN Version Code	Surname	(Legal) First Name	Preferred/Chosen Name

Sex Assigned at Birth
☐ Female ☐ Male ☐ Unknown ☐ Undifferentiated

Preferred Language
☐ English ☐ French ☐ Other (Specify):

Date of Birth (dd-mmm-yyyy)	Treatment Address	Telephone

Allergies ☐ Attached

☐ Adult: Standard ☐ Adult: Alternative (Specify): ☐ Pediatric: (Specify)

Dressing Change Instructions

☐ Standard dressing protocol ☐ Alternative dressing protocol (Specify):

Lab Monitoring

IMPORTANT: The MRP is required to order/monitor initial and ongoing lab results. **Doses will be held** if infusion pharmacy vendor and nursing service provider do not have lab results where required. **Vancomycin and Aminoglycosides (e.g.: Gentamycin) require the prescriber to attach lab values.** ISMP Canada: Monograph-IV-Vancomycin.pdf (ismp-canada.org) and Monograph-IV-Gentamycin for monitoring laboratory results.

- ☐ Prescriber is monitoring the treatment, lab work (if applicable)
- ☐ Other practitioner monitoring the treatment/lab work. Enter contact information below

Monitoring Practitioner Name and Designation	Telephone	Fax

Special Instructions

Please provide any necessary details for **discontinuation** of other medications or any additional considerations (e.g. fluid restrictions):
